### **Information on working in Ireland**

The following websites provide general information. Contact details are included to enable employers / employees address specific queries.

[www.pointofsinglecontact.ie](http://www.pointofsinglecontact.ie)

[www.workplacerelations.ie](http://www.workplacerelations.ie)

### **Knowledge of the posting situations**

Currently, there is no notification obligation or requirement where service providers / employers from other EU Member States post workers to work in Ireland.

It is proposed that such an obligation, to notify the competent authority (NERA), will be introduced when the new Directive on enforcement of Directive 96/71/EC is transposed into Irish law.

### **Information exchanges with the other MS**

Ireland has no formal agreements with other EU Member State regarding information exchange regarding the posting of workers. NERA is a member of and communicates with other EU Member States competent authorities through the European Commission Internal Market Information System (IMI).
